

# Is your child struggling to get the autism care they need?

*So are many others. Let's change that.*

## Parents or caregivers should complete our 60 second survey

If your child is unable to access:

- Autism diagnosis
- Autism treatment
- Other behavior healthcare

Your story matters.

**This survey takes just 60 seconds**

## Caregiver Survey — Scan to Start

## Providers, educators, advocates, we want to hear from you, too!

If you support children with autism — as a therapist, teacher, or advocate — we want your perspective too.

 **Providers: Take the stakeholder survey here**

Our voices are stronger together. By collecting and sharing these barriers to care with healthcare officials we can compel them to take action and ensure that Kentucky's children have access to the care they need.

The Bluegrass Alliance for Behavior Health is a pending 501(c)(3) Kentucky non-profit dedicated to advocating for real, effective solutions. We're teaming up with healthcare providers, professional associations, and families to break down barriers and ensure every child receives the prompt diagnosis and essential therapy they deserve.
